A World Survey of Religion and the State by Jonathan Fox

The study shows that government involvement in religion is ubiquitous, that it increased significantly during this period, and that only a minority of states, including a minority of democracies, have separation of religion and state. These findings contradict the predictions of religion's reduced public significance found in modernization and secularization theory. The findings also demonstrate that state religious monopolies are linked to reduced religious participation.

"[A World Survey of Religion and State] is the most authoritative work of its kind. With 175 states included, and a wide range of indicators about the place of religion within them, this study is unprecedented. In contrast to conventional academic wisdom over several decades, religion turns out be very significant around the world. The findings are important. We find most states give
