[Aviation and Climate Change by Alice Bows, Kevin Anderson ...](#)

With air travel predicted to grow enormously in the coming years, the issue of climate change is hugely topical for this important industry. Accessible to students, academics and practitioners, this book is useful reading for all those with an interest in climate change, the aviation industry, or both.

[Aviation and climate change: confronting the challenge ...](#)

Given growth projections for aviation and the relatively

slow pace of technological change, aviation's proportion of 2050 global CO₂ emissions is low only in those global cross-sector emission scenarios where there is a high probability of dangerous climate change.
