Learning and Teaching Languages Through Content: A ...

This should be compulsory reading for anyone interested in language learning in content-based second language contexts. Lyster has provided a comprehensive and insightful analysis of language teaching and learning in CB classrooms that will be of interest to researchers, university students, and education practitioners alike.

Learning and Teaching Languages Through Content: A ...

A counterbalanced approach is outlined as an array of opportunities for learners to process language through content by means of comprehension, awareness, and production mechanisms, and to negotiate language through content by means of interactional strategies involving teacher scaffolding and feedback.

Learning and Teaching Languages through Content: A ...

Teaching in an intensive English program, I use content as a vehicle for language learning; however, due to the engaging nature of the content, I often find myself giving short shrift to language in general, and particularly to the analysis of grammatical features in context. To my mind, then, Lyster's notion of counterbalance is simple yet fundamentally important for planning and teaching
