OECD iLibrary | OECD Environmental Performance Reviews

OECD Environmental Performance Reviews provide independent assessments of countries progress towards their environmental policy objectives. Reviews promote peer learning, enhance government accountability, and provide targeted recommendations aimed at improving environmental performance, individually and collectively. They are supported by a broad range of economic and environmental data.

OECD Environmental Performance Reviews: Canada 2017

Since 2000, Canada has made progress in decoupling economic growth from air pollution, energy consumption and GHG emissions, but it remains one of the most energy- and emissions-intensive economies in the OECD. Further progress is needed to transition to a green, low-carbon economy. This is the third Environmental Performance Review of Canada. It evaluates progress towards sustainable

Environmental country reviews - OECD

The OECD Environmental Performance Reviews (EPR) programme has been helping member countries to improve their environmental management for 20 years. Turkey Since 2008, its economic growth has been relatively decoupled from air emissions, energy use, waste generation and water consumption.

OECD Environmental Performance Reviews: Australia 2019 ...

Australia has managed to decouple economic growth from the main environmental pressures and has made impressive progress in expanding protected areas. However, it is one of the most resource- and carbon-intensive OECD countries, and the state of its biodiversity is poor and worsening. Advancing

OECD Environmental Performance Reviews: Turkey 2019

Turkey is the fastest growing OECD economy with rapidly increasing greenhouse gas emissions. Since 2008, its economic growth has been relatively decoupled from air emissions, energy use, waste generation and water consumption. However, the high resource intensity of Turkey's economy and its
