OECD Reviews of Tertiary Education - Poland - OECD

OECD Reviews of Tertiary Education - Poland. In many OECD countries, tertiary education systems have experienced rapid growth over the last decade. With tertiary education increasingly seen as a fundamental pillar for economic growth, these systems must now address the pressures of a globalising economy and labour market. Within governance frameworks that encourage institutions, individually and collectively, to fulfil multiple missions, tertiary education systems must aim for the broad

Education GPS - Estonia - Overview of the education ... - OECD

Estonia has one of the highest levels of expenditure on early childhood education as a share of GDP but a lower level of expenditure on primary to tertiary education than on average across OECD countries.

Population with tertiary education - OECD Data

Population with tertiary education is defined as those having completed the highest level of education, by age group. This includes both theoretical programmes leading to advanced research or high skill professions such as medicine and more vocational programmes leading to the labour market.
