in importance.

**TeleNeurology.com**

Teleneurology is an extension of telemedicine that  
provides neurological services via remote communication  
and internet connection. Using teleneurology, patients in  
remote distance can communicate with doctors  
(neurologists) in both realtime (or near realtime), and share  
information, allowing neurologists to make instant  
evaluation. So far, the means of commutation techniques  
have been the use
